

# Thrive by Five Collaborative

Mona Mansour, MD

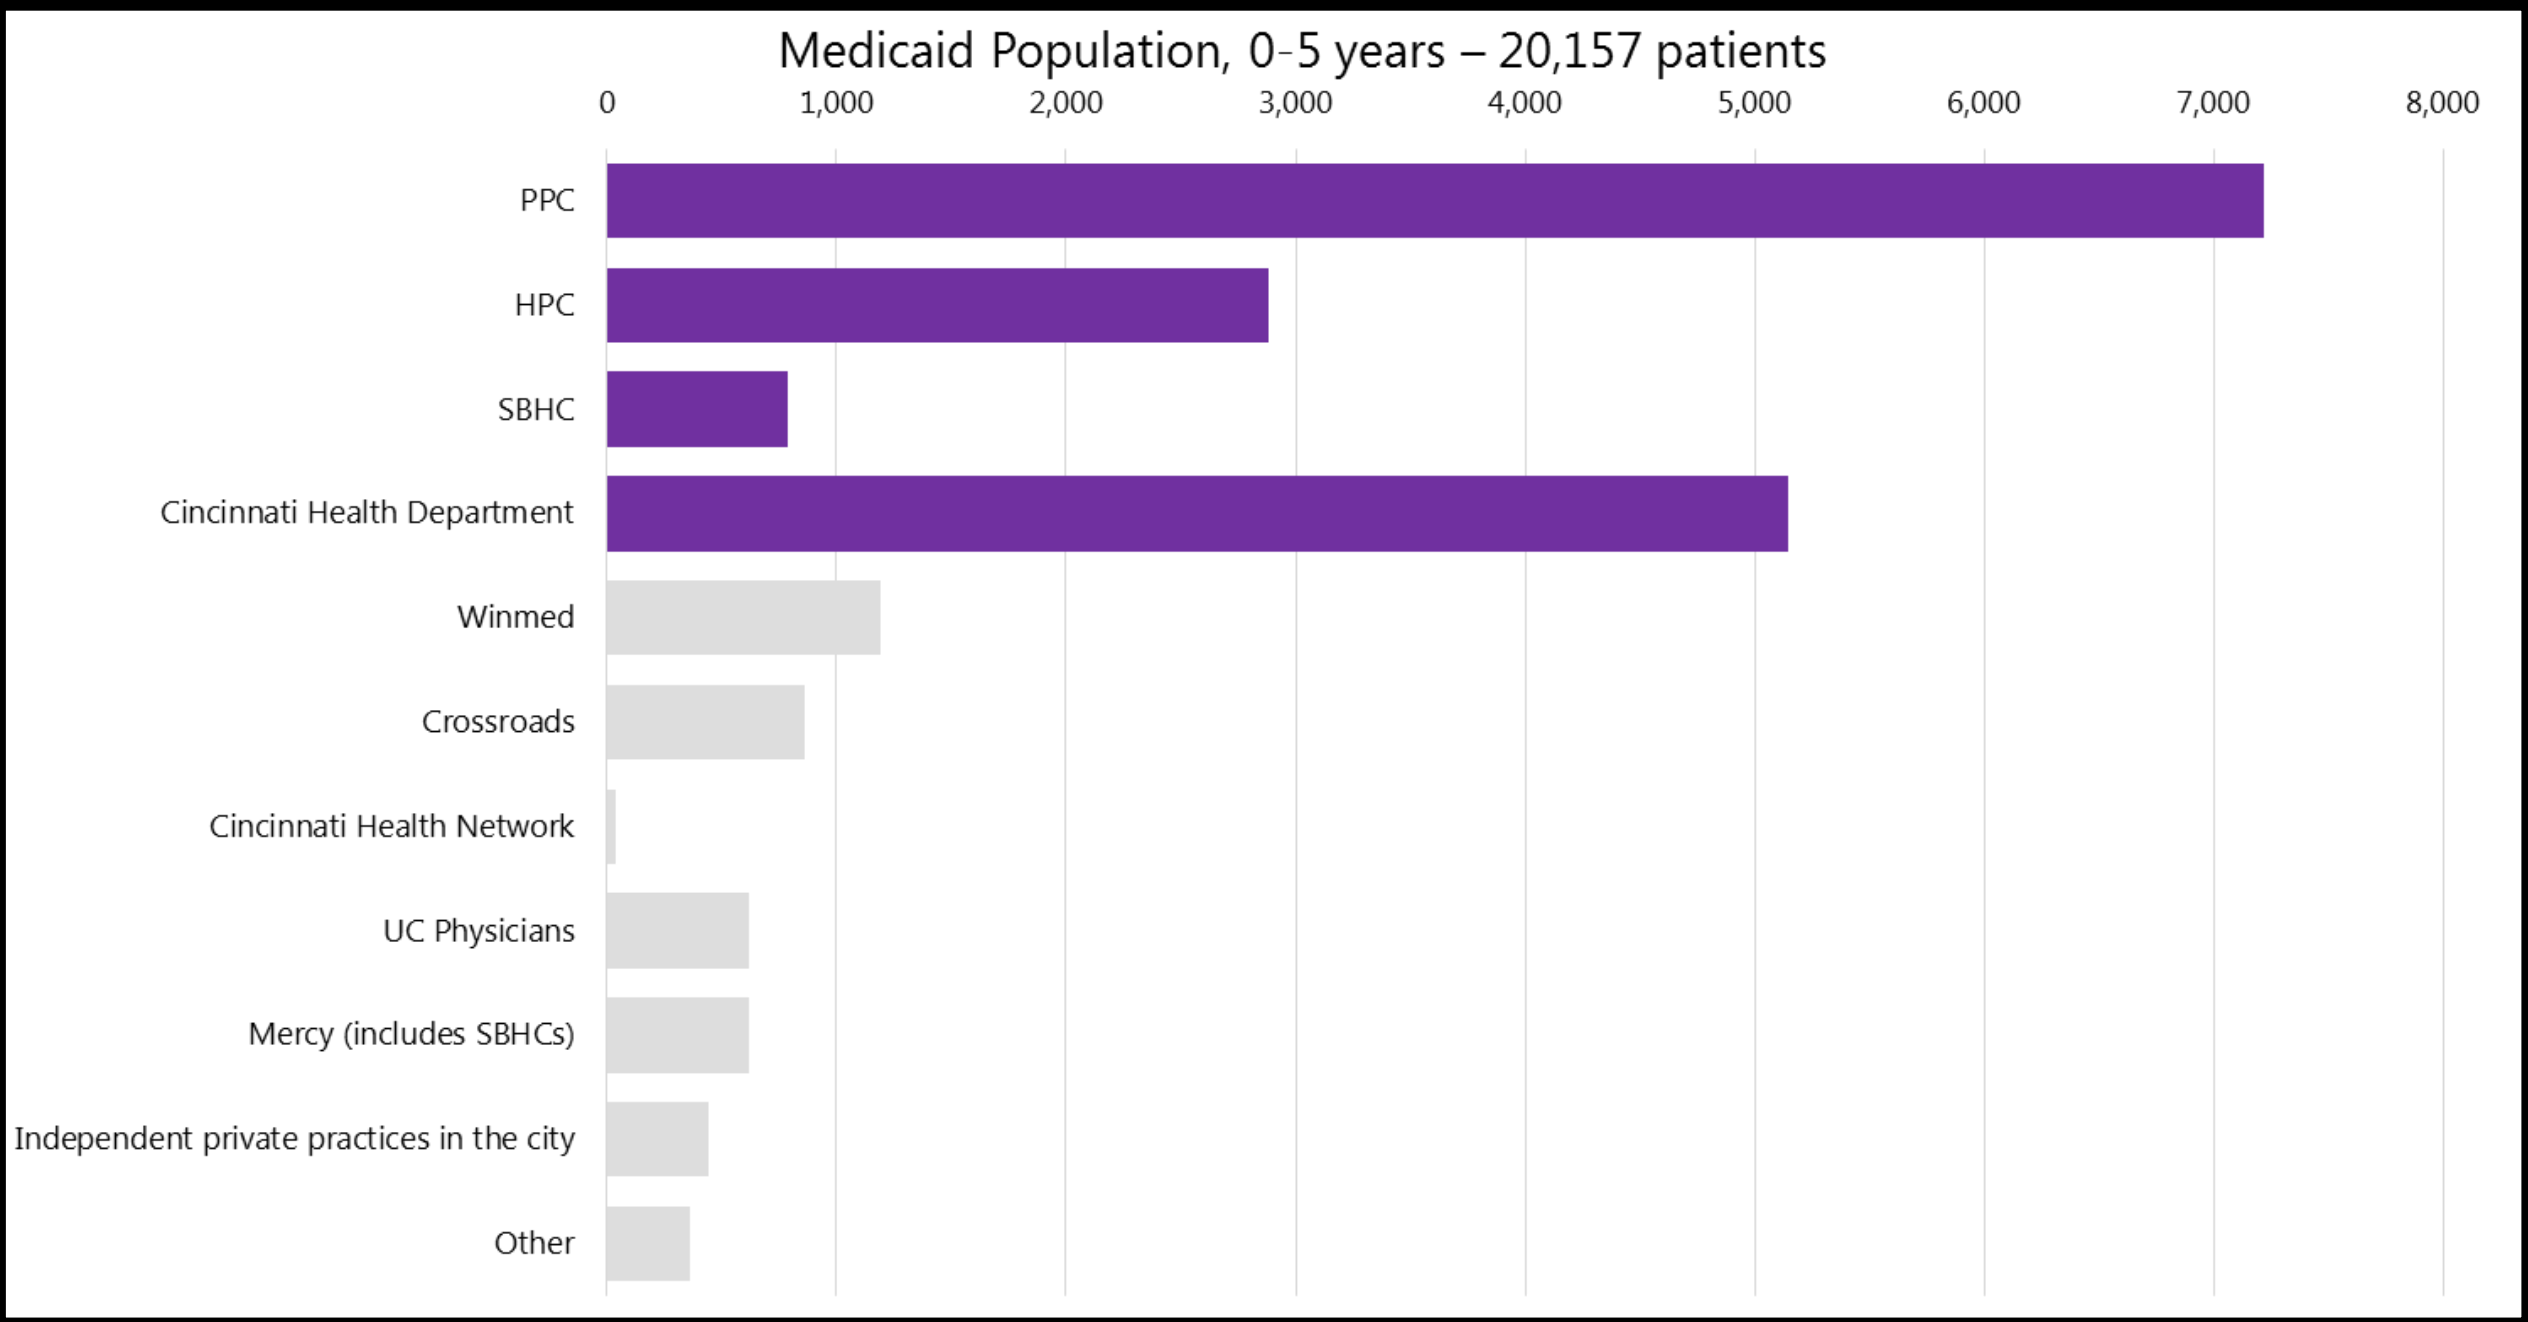

Marilyn Crumpton, MD

# Community Connected Primary Care

## Why this Collaborative?

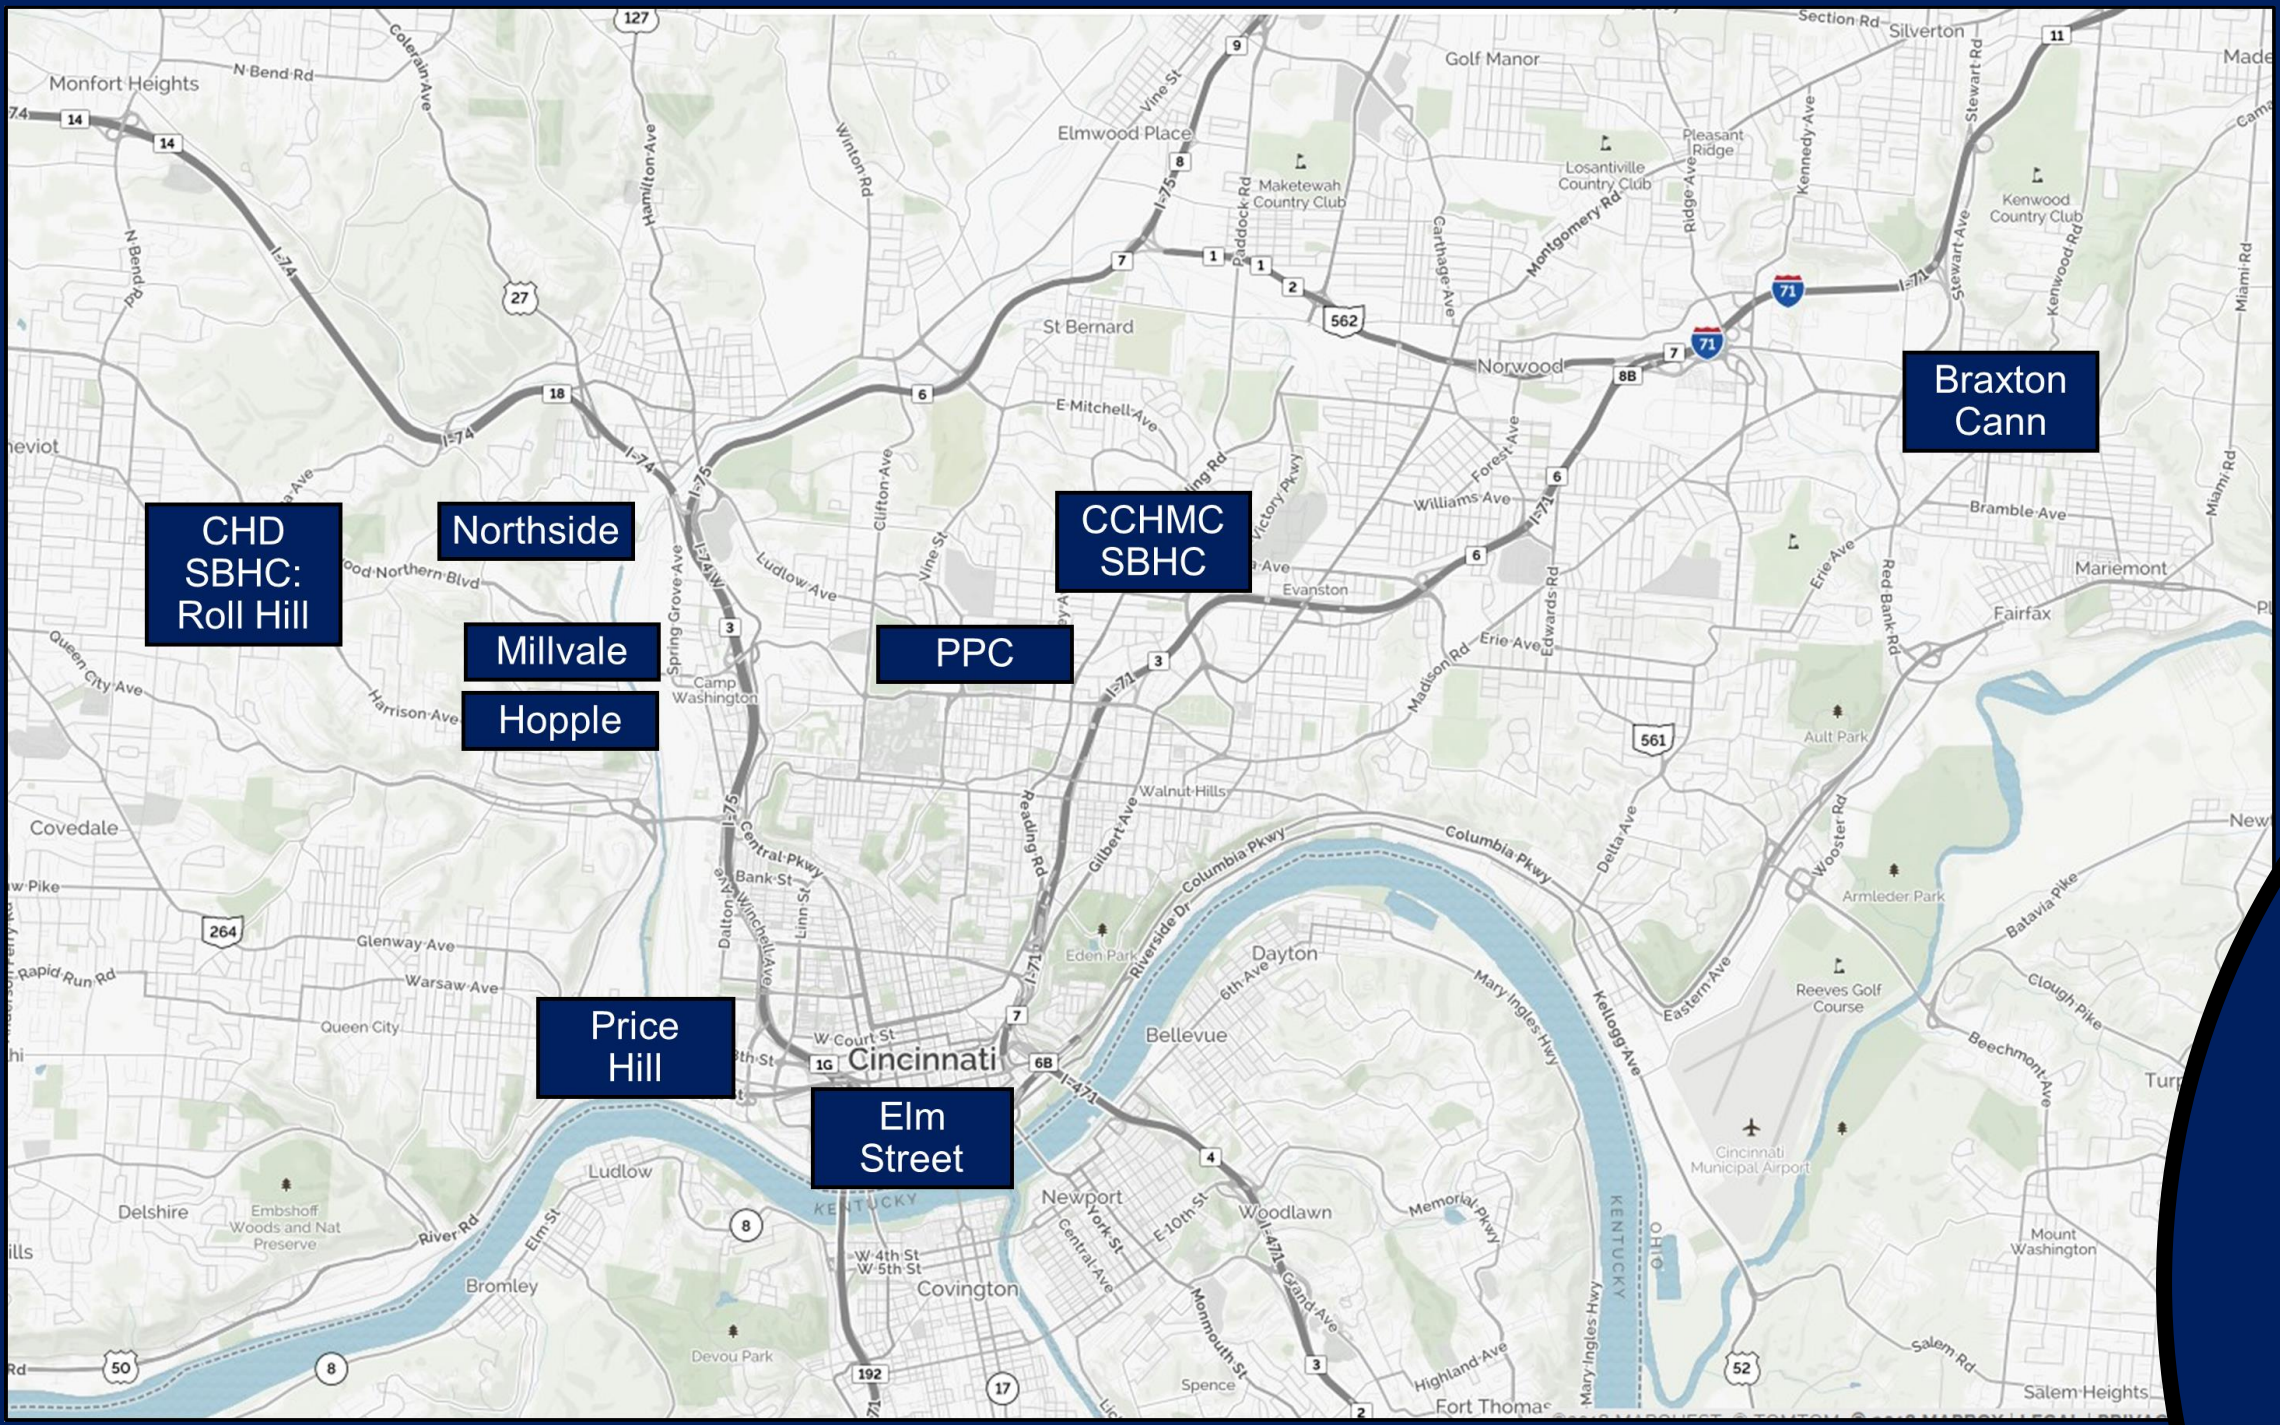

Together we represent ~80% of the 0-5 years of age Medicaid population in Cincinnati

June 2017

Ensuring ALL 5 year olds have a Healthy Mind and Body

# Who we are...

**POWERFUL IMPACT  
IF WE ALL WORK  
TOGETHER versus  
as INDEPENDENT  
CLINICS**

9 clinics participating:  
6 CHD teams and 3 CCHMC teams

Teams working on one of the  
following measures:

- Lead
- Immunizations
- ASQ
- Dental

# System Level Key Driver Diagram: Community Connected Primary Care

Champions: Marilyn Crumpton, MD & Mona. Mansour, MD

Revision Date: 6-13-18

## Vision

Help Cincinnati's 66,000 children be the healthiest in the nation through strong community partnerships

## Mission

Attain community connected primary care (CCPC) in the Greater Cincinnati Area

CCPC is a community driven primary care system that proactively identifies patient's health and wellness needs, effectively connects the patients and their caregivers to the right resources when and where they need them, and ensures every child is not only free from harm, but thriving, and system reduces cost of care

## What are we trying to accomplish?

- Reduce inpatient bed days per 1,000 for children ages 0-17 living in Avondale, East & Lower Price Hill from 93.3 to 90 by June 2020
- Percent of General Pediatric patients turning 66 months who have received all Thrive at Five bundle elements (full immunizations, no cavities, normal social-emotional screen, normal speech) from 13.4% to 40% by June 2020
- Thrive by 5 Collaborative AIM – increase the percentage of preventive elements given (lead, ASQ, vaccines) from 60% to 70% in 0-27 month children by June 30, 2019.

## Primary Drivers

- The entire health system and community have a shared vision, are engaged and activated and demonstrate accountability for improving outcomes
- Trust and respect exists between community members and the providers that serve them
- There are no economic and psychosocial obstacles to care
- Caregivers are healthy
- Children and families receive the right care at the right time in the right place (System is capable)
- Optimal Clinical Functioning
- Care is easy to navigate for families (System connectivity – communication and information sharing)
- Proactive Population Management
- Models of payment support population management
- Data availability and transparency

## FY19 Improvement Projects

**Inpatient Bed Days (Asthma Standardization, Transitions of Care, Outreach- Specialty Clinics, Care Management)**  
 AIM: Reduce inpatient bed days per 1,000 for children ages 0-17 living in Avondale, East & Lower Price Hill from 93.3 to 90 by June 2020  
 Leaders: Andy Beck and Kristy Anderson

**Thrive by Five Bundle (Visit Level, Literacy, Inreach, Outreach -Population Mgmt/Care Gaps/Community Connections)**  
 AIM: Percent of General Pediatric patients turning 66 months who have received all Thrive at Five bundle elements (full immunizations, no cavities, normal social-emotional screen, normal speech) from 13.4% to 40% by June 2020  
 Leaders: Zeina Samaan, Courtney Brown and Amy Haering

**Thrive by Five Collaborative**  
 AIM: increase the percentage of preventive elements given (lead, ASQ, vaccines) from 60% to 70% in 0-27 month children by June 30, 2019, by June 30, 2019, TBD 2020 goal  
 Leaders: Marilyn Crumpton and Mona Mansour

**Behavioral Health**  
 AIM: 55% of children ages 0-5 years will be seen by a psychologist during WCC at Hopple Street Clinic, and 80% of children ages 0-5 years will be screened with ASQ: SE2 and SDQ  
 Leaders: Lori Stark

**School Based Health – Discharge Follow-up**  
 AIM: Spread process of school nurse communication with family after hospital discharge from 6-8 schools to Y number of CPS schools. Increase the percent of CPS patients with hospitalization with follow up by school nurse from X percent to Y percent.  
 Leaders: Stacey Willis

# Just *some* of our HIGHLIGHTS...

Elm Street Clinic developed an **integrated** Dental and Well Child Check visit, the “knee to knee” exam

Braxton Cann and Northside Clinics are working on a “**proactive**” outreach strategy helping kids stay on track with their check ups

PPC developed dental **maps** and a comprehensive dental **resource guide** for the collaborative

Price Hill Clinic is extending their ASQ work and are preparing now to take on **literacy** in 2019

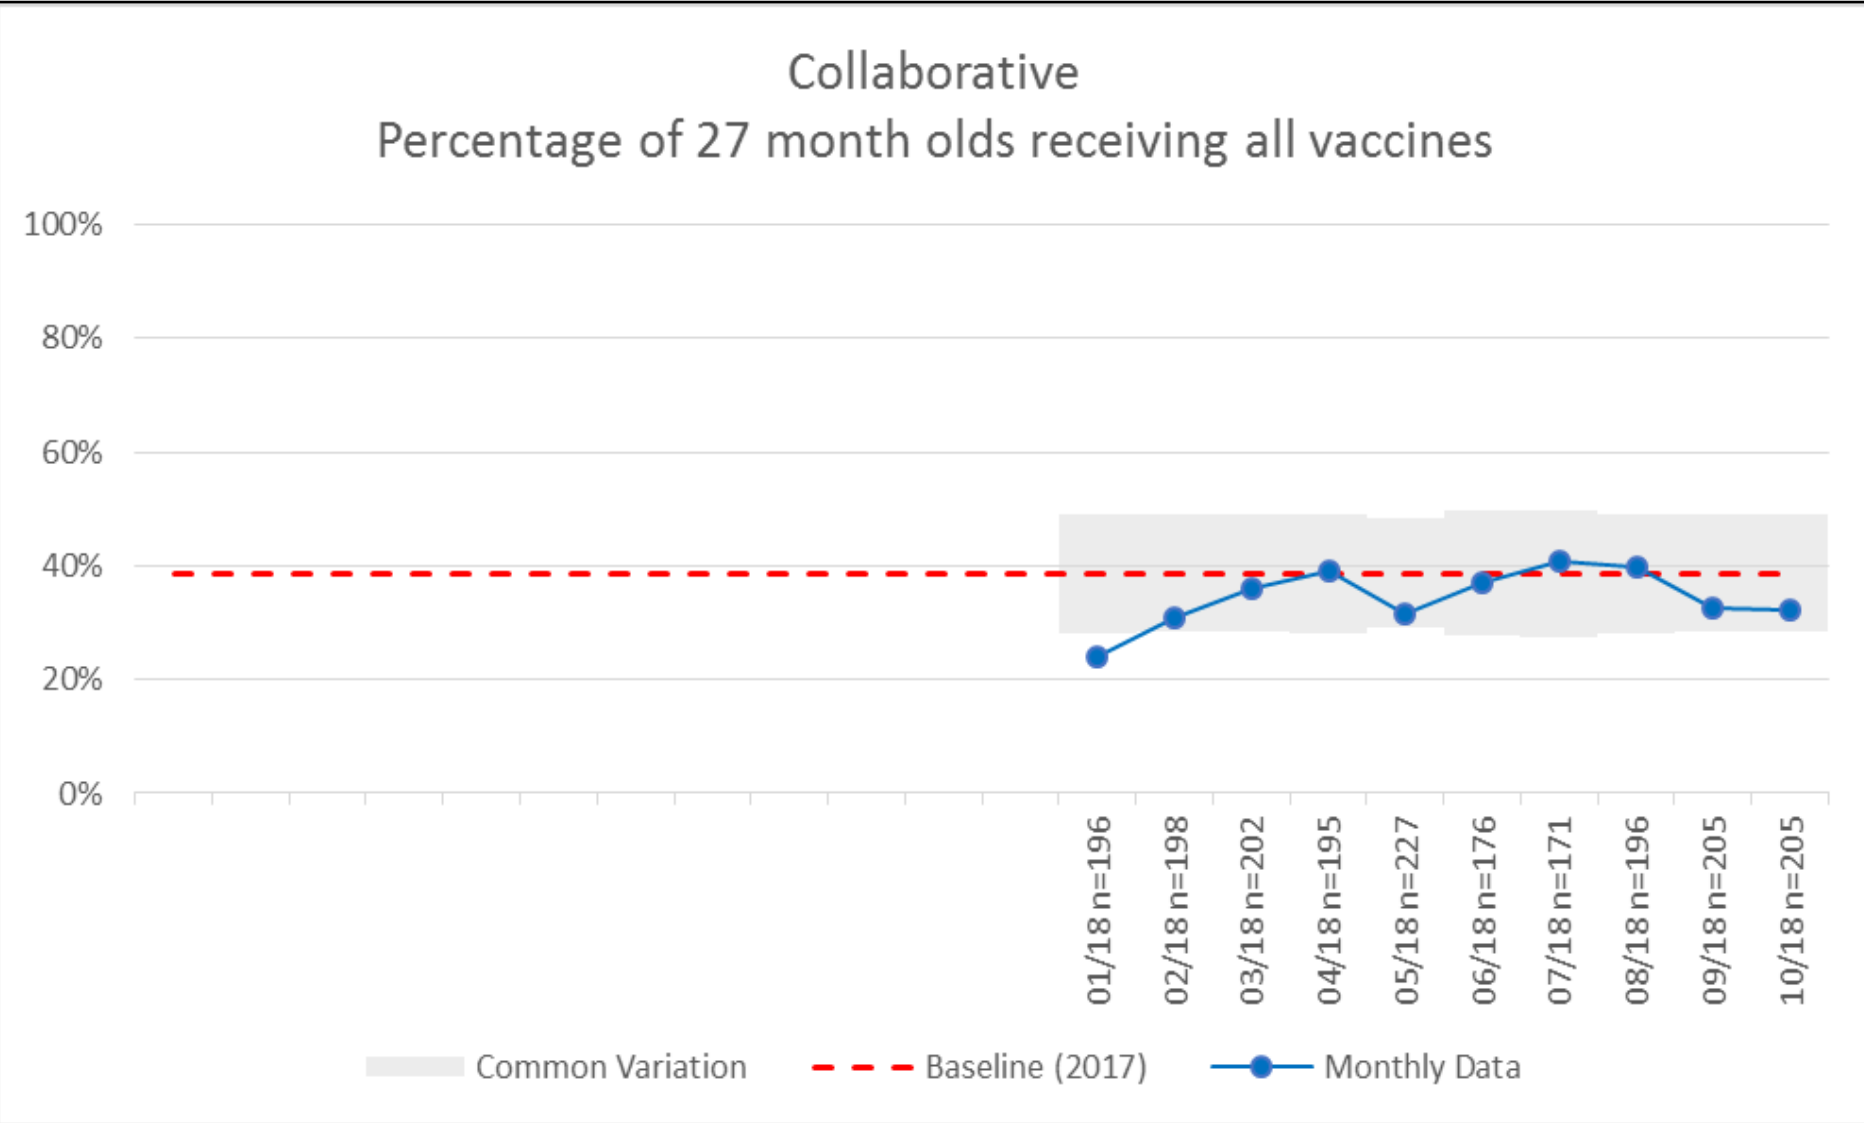

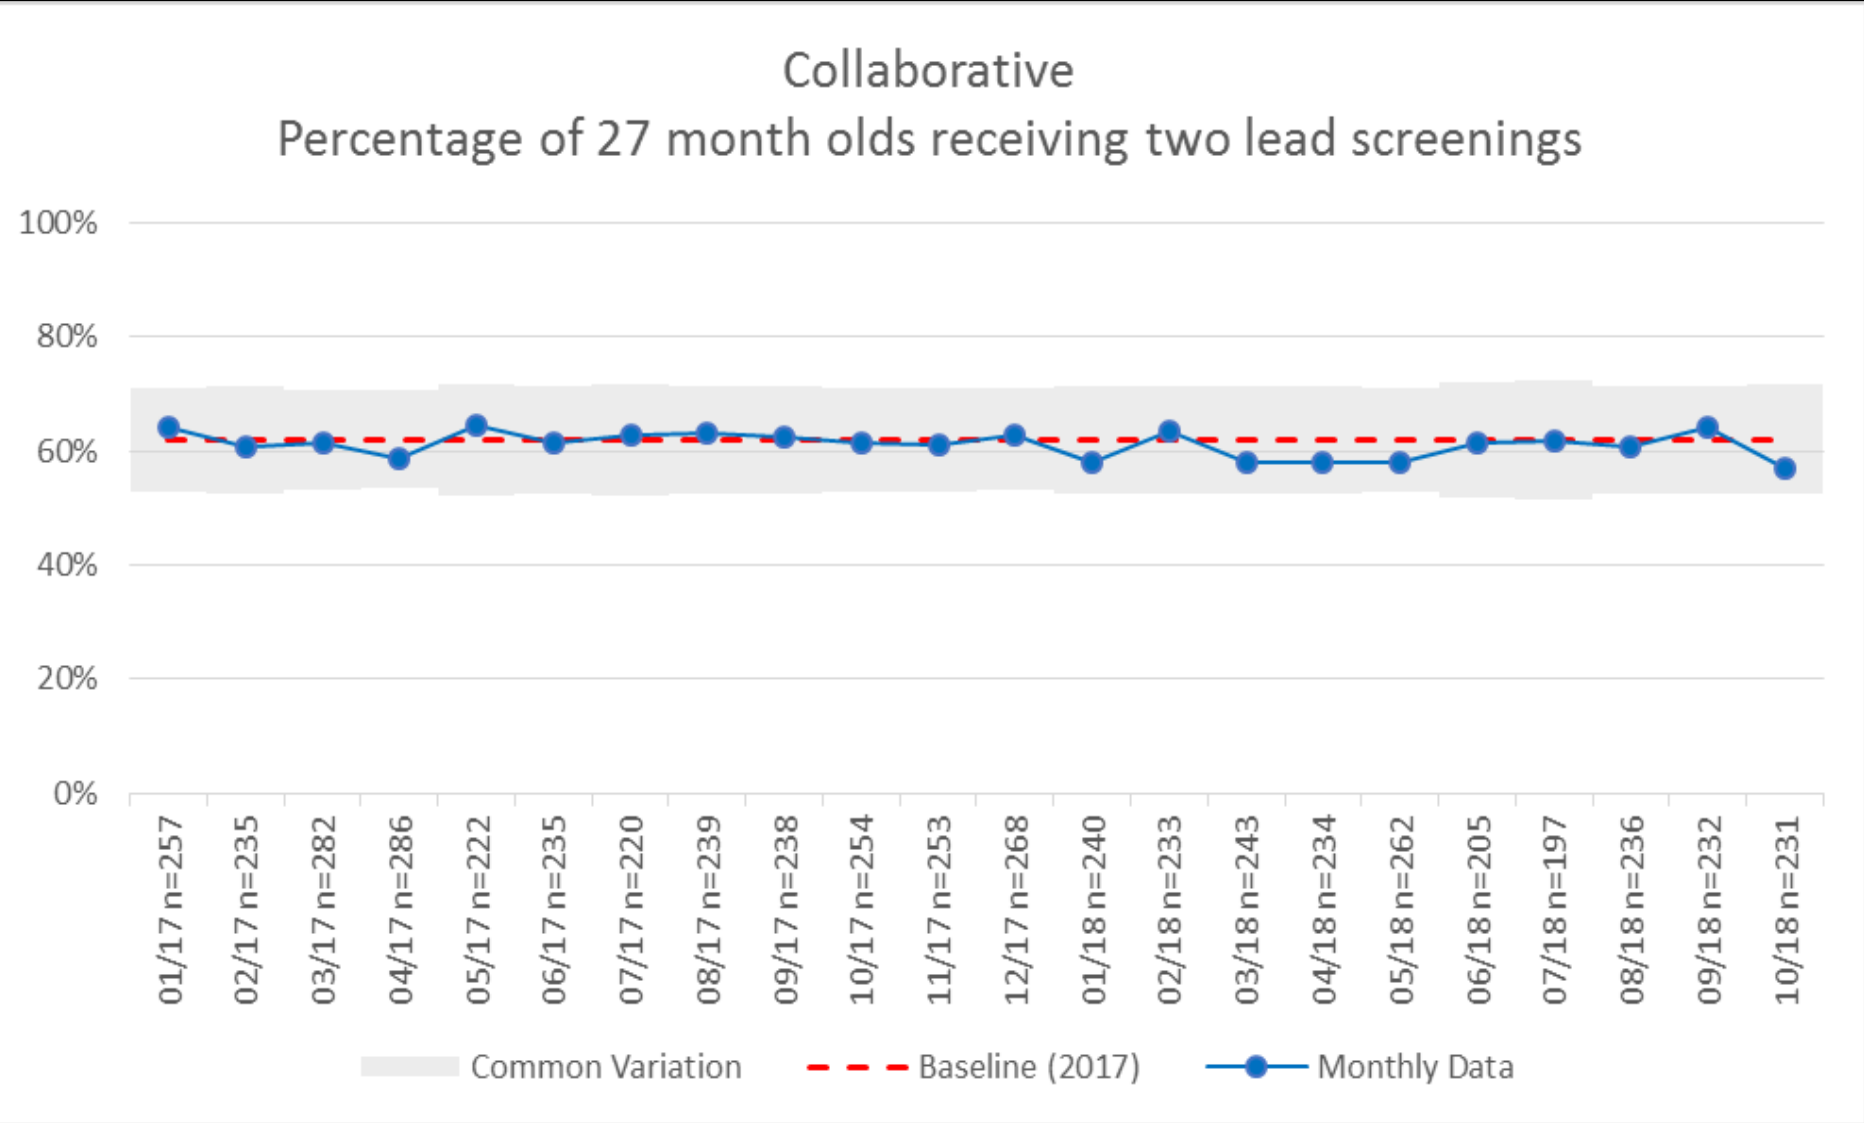

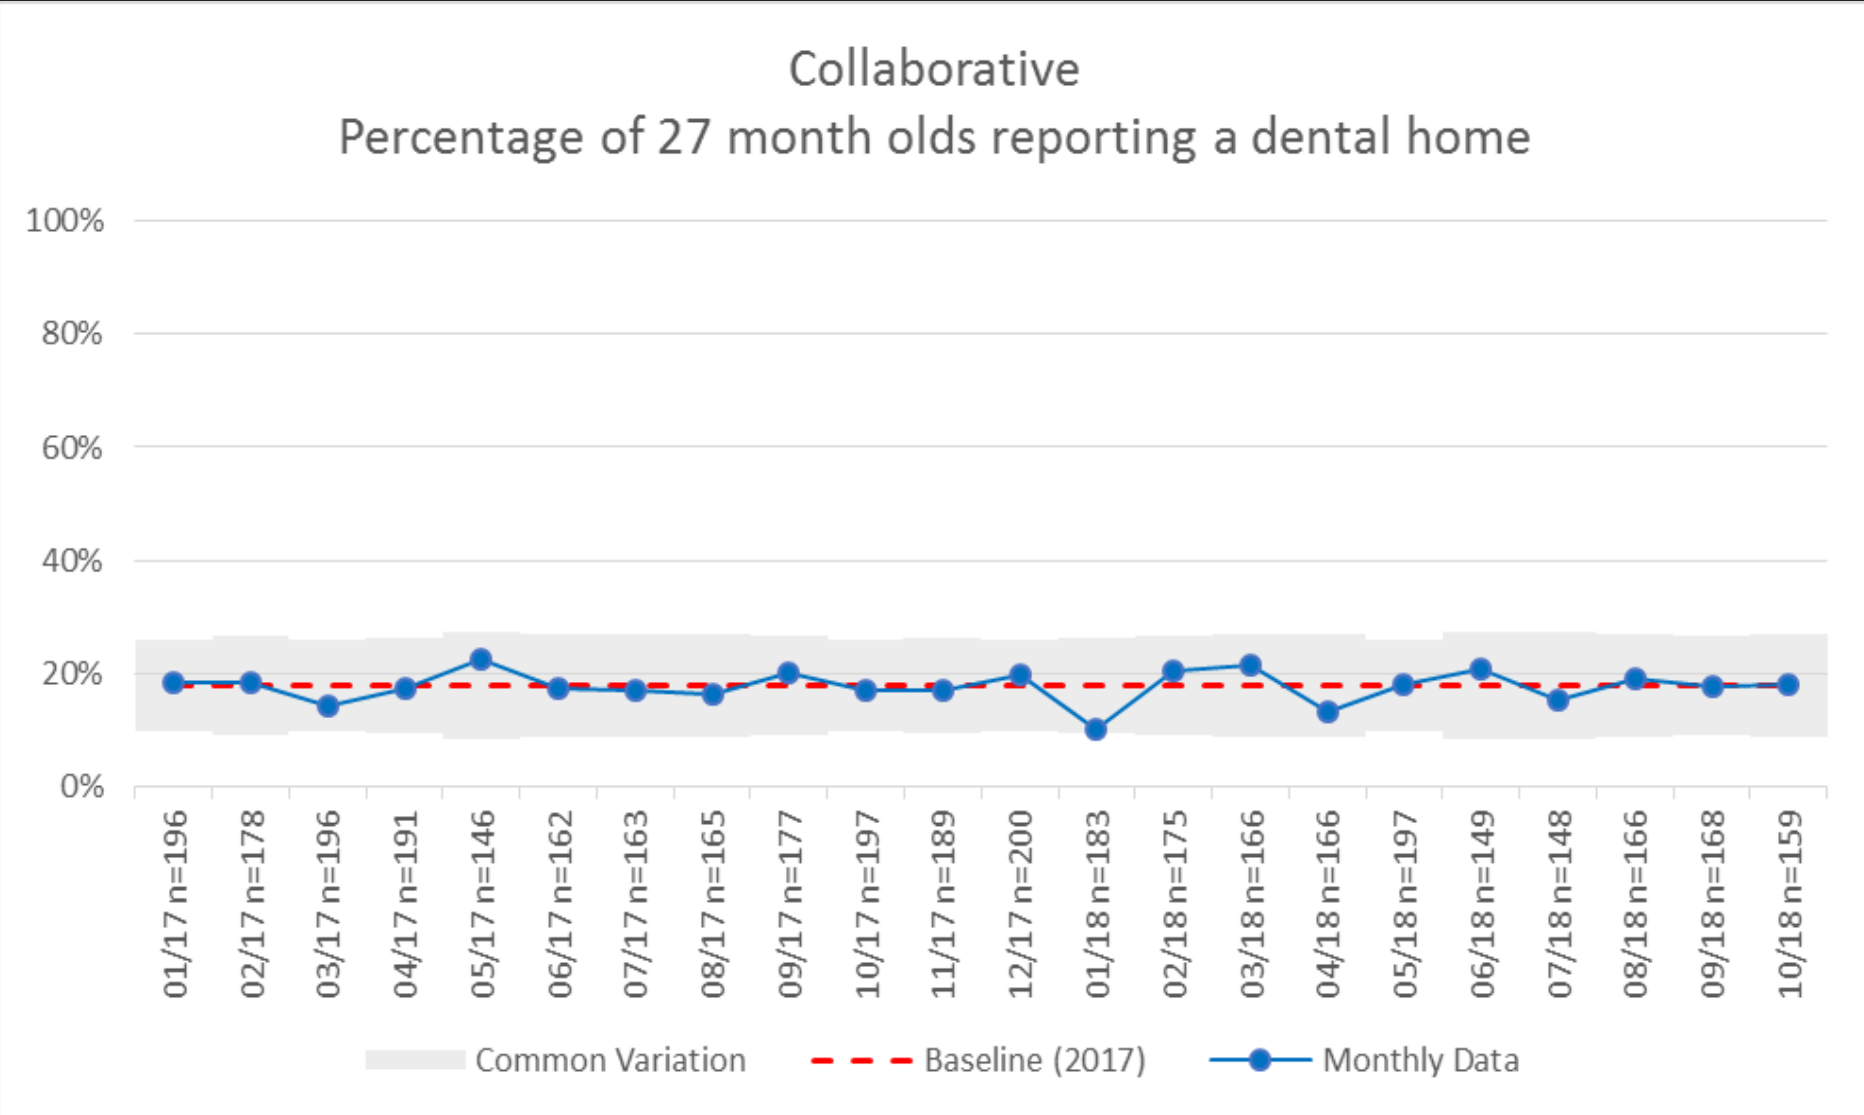

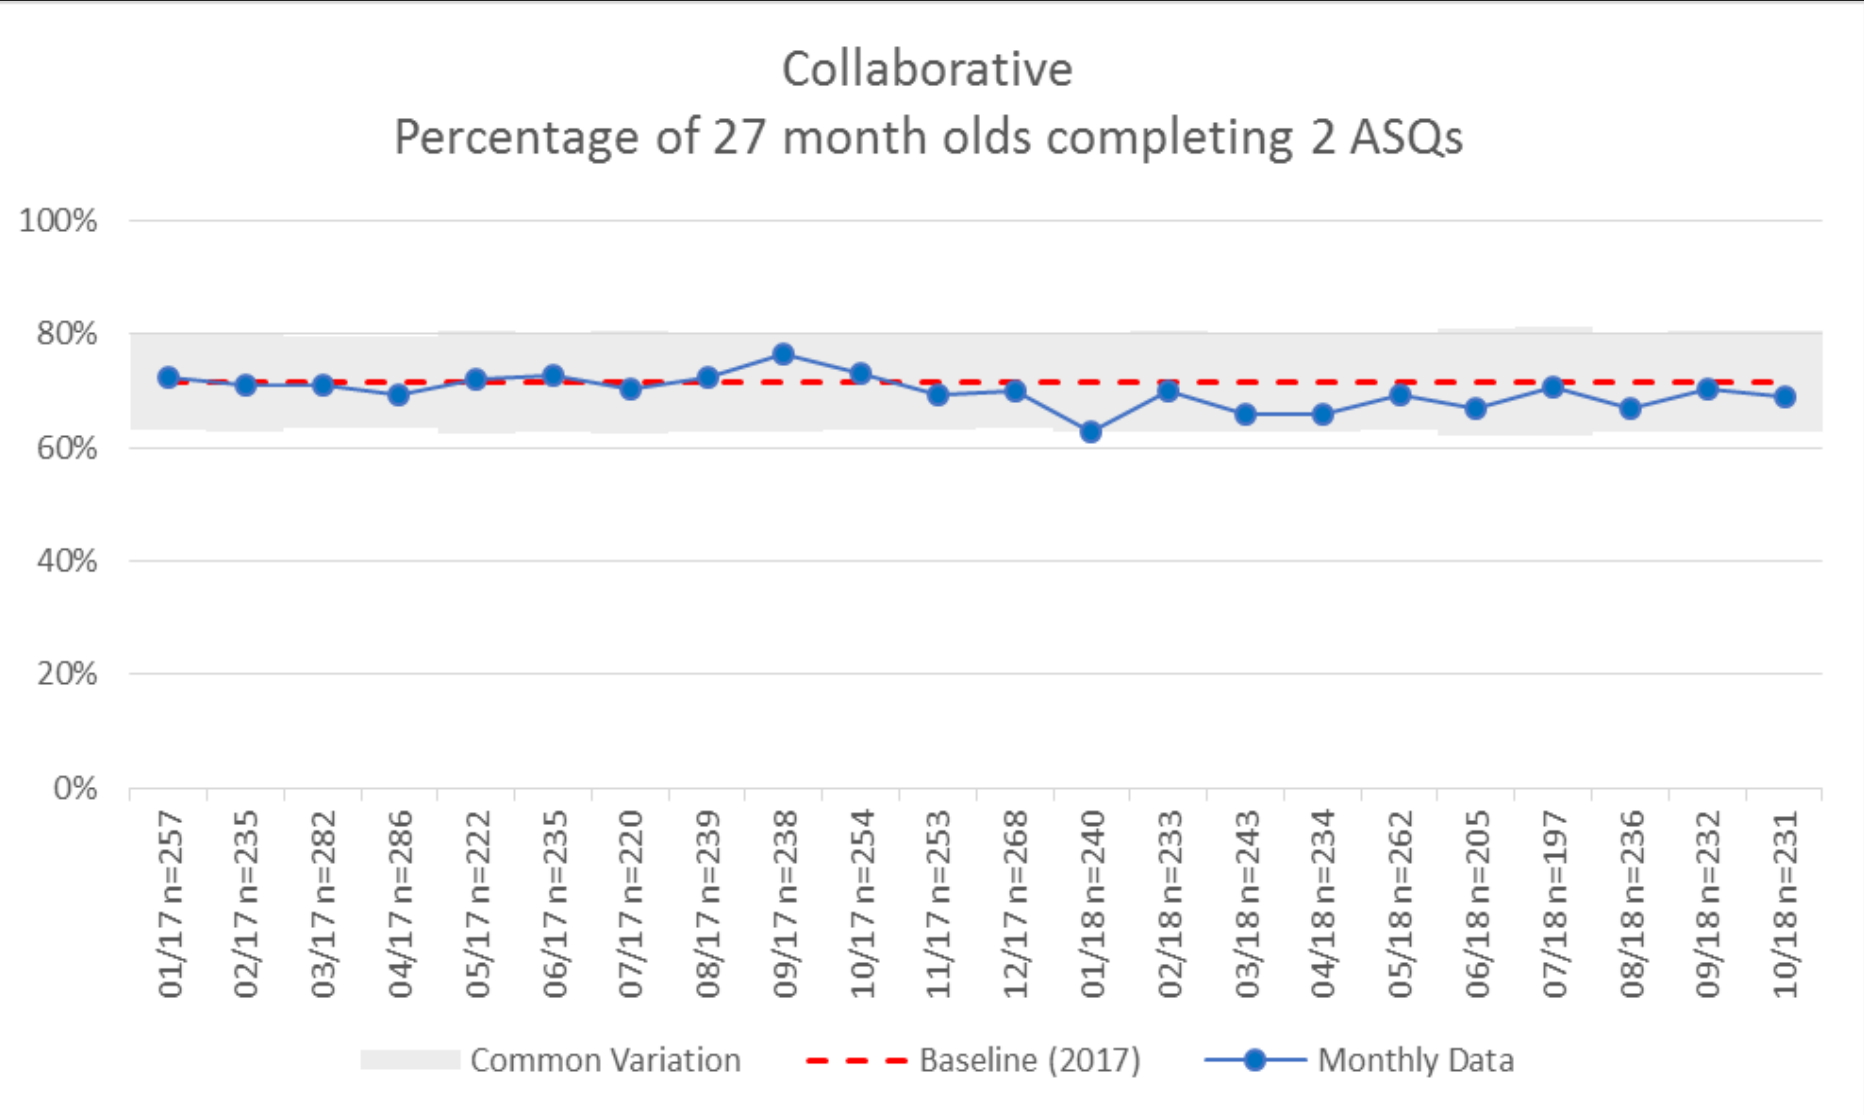

Hopple Clinic is also measuring **downstream** clinic response to elevated lead and lead levels returning to normal

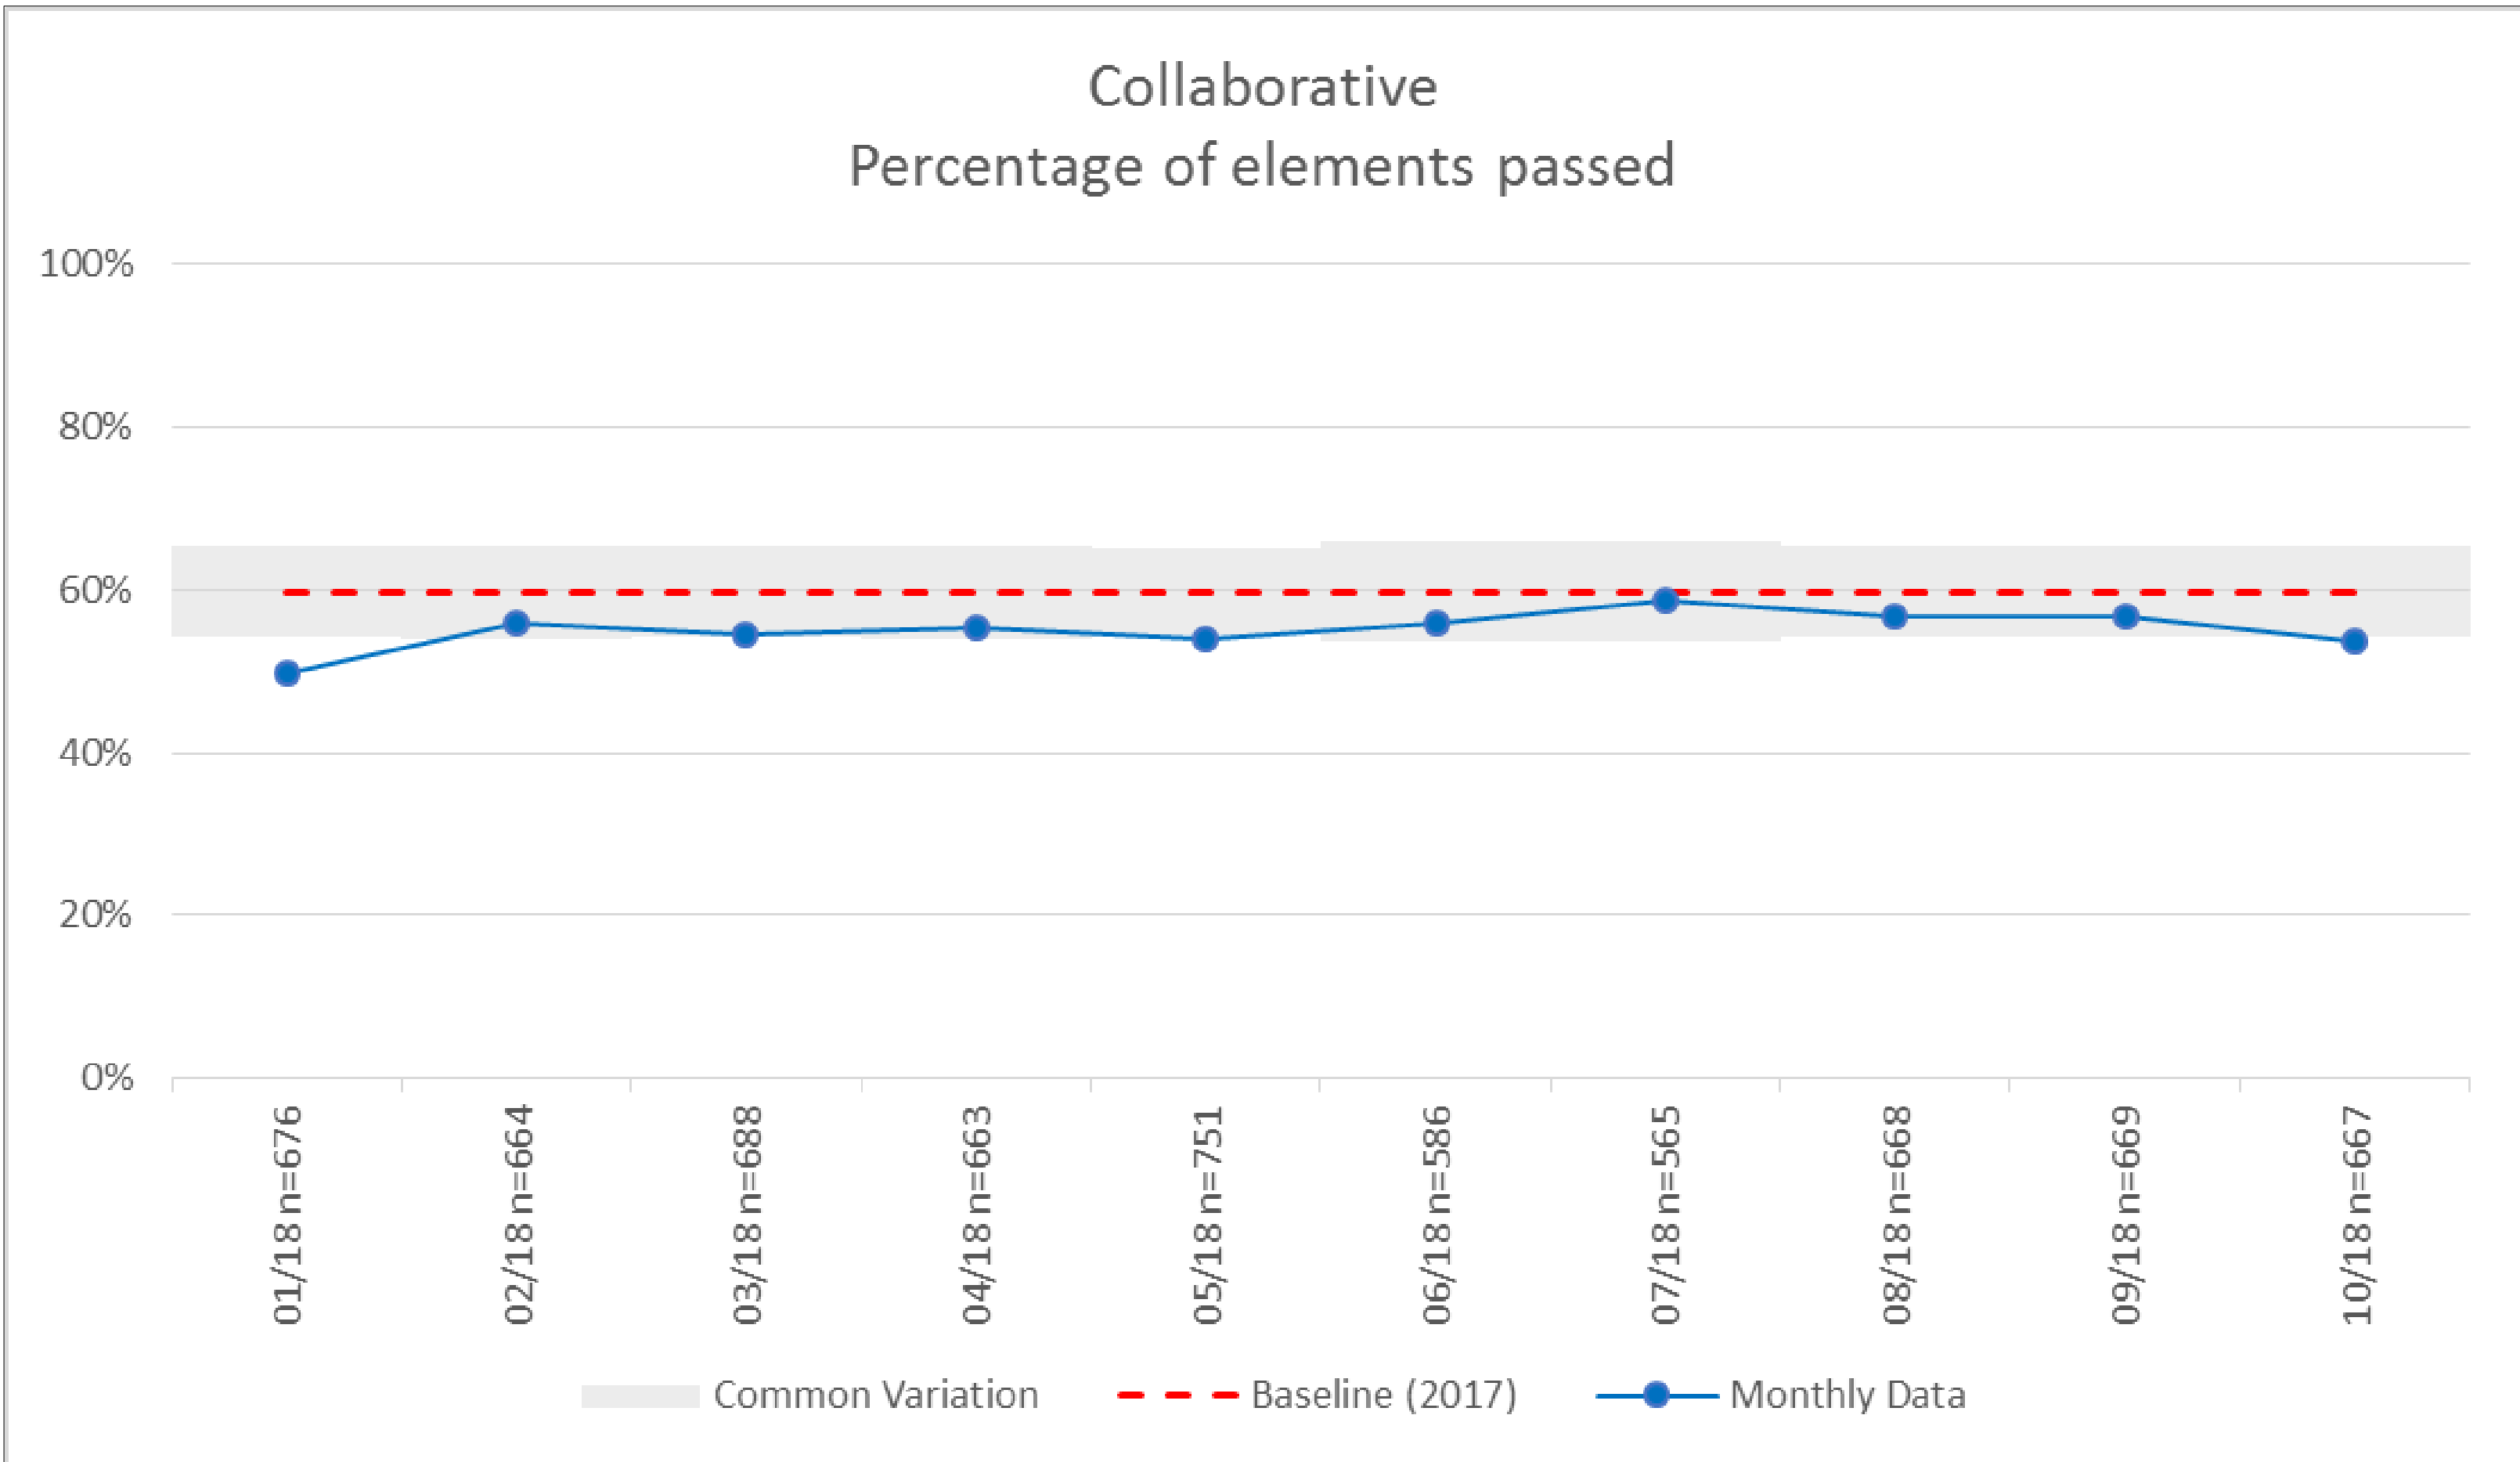

Millvale Clinic and CCHMC SBHC both have **positive** trends in their **population** data
